

Request ID: 290			
Project Name:	National Guard Readiness Center, Shawnee, Oklahoma	Request Nature:	Community Project Funding
Member Name:	Bice, Stephanie I. (R-OK)	Member's Request: (in thousands, \$000)	\$1,156
Justification:	<p>**We will attach the DD-1391 and letter of support separately.</p> <p>I am requesting design funding for a new National Guard Readiness Center in Shawnee, Oklahoma in fiscal year 2024. The entity to receive funding for this project is the Oklahoma National Guard, headquartered at 3501 Military Circle, Oklahoma City, Oklahoma 73111.</p> <p>Funding would be used for project design. This project is an appropriate use of taxpayer funds because it directly impacts troop readiness and morale, and is listed on the Army's Future Years Defense Program (FYDP).</p> <p>The project has a Federal nexus because the funding provided is for purposes authorized by 10 USC, Chapter 169. I certify that I have no financial interest in this project, and neither does anyone in my immediate family.</p>		
Project Purpose:	<p>This CPF request is for design funding for the forthcoming National Guard Readiness Center in Shawnee, Oklahoma which is listed on the Army's Future Years Defense Program (FYDP). The planned facility will replace the current armory which dates to the early 1950s and is in need of replacement. The inflation-adjusted cost of the entire project is \$28.9M, however because this project is not yet 35% design complete, this request is only for design funding. The Oklahoma National Guard estimates that for FY24 they are able to obligate 4% of the total inflation-adjusted cost. This amount totals \$1,156,000, and is based on design build (DB) cost calculations. Thus, the request for FY24 is for \$1,156,000.</p>

Dear Chairman Rogers and Ranking Member Smith:

I am requesting design funding for a new National Guard Readiness Center in Shawnee, Oklahoma in fiscal year 2024. The entity to receive funding for this project is the Oklahoma National Guard, headquartered at 3501 Military Circle, Oklahoma City, Oklahoma 73111.

Funding would be used for project design. This project is an appropriate use of taxpayer funds because it directly impacts troop readiness and morale, and is listed on the Army's Future Years Defense Program (FYDP).

The project has a Federal nexus because the funding provided is for purposes authorized by 10 USC, Chapter 169. I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

STEPHANIE BICE
Member of Congress

Request ID: 291			
Project Name:	F-35 Aircraft Oxygen Shop, Tinker Air Force Base	Request Nature:	Community Project Funding
Member Name:	Bice, Stephanie I. (R-OK)	Member's Request: (in thousands, \$000)	\$5,800
Justification:	<p>I am requesting design funding for the F-35 Aircraft Oxygen Shop at Tinker Air Force Base in fiscal year 2024. The entity to receive funding for this project is the Air Force Sustainment Center, headquartered in Building 3001, Tinker AFB, Oklahoma 73145.</p> <p>Funding would be used for project design. This project is an appropriate use of taxpayer funds because it supports mission readiness of the F-35 fleet and is listed on the Air Force Future Years Defense Program (FYDP).</p> <p>The project has a Federal nexus because the funding provided is for purposes authorized by 10 USC, Chapter 169. I certify that I have no financial interest in this project, and neither does anyone in my immediate family.</p>		
Project Purpose:	<p>This CPF request is for design funding for the F-35 Aircraft Oxygen Shop within the Air Force Sustainment Center (AFSC) on Tinker Air Force Base in Oklahoma. This facility will double the capacity for depot maintenance of aircraft oxygen systems, where workload requirements are rapidly increasing. The F-35 Aircraft Oxygen Shop project is not yet 35% design complete, thus this request is for 10% of the total \$58M amount listed on the Air Force Future Years Defense Program (FYDP).</p>

Project Name:	Planning and Design Funds for the Wheeler Air Traffic Control Tower	Request Nature:	Community Project Funding
Member Name:	Case, Ed(D-HI)	Member's Request: (in thousands, \$000)	\$5,400
Justification:	Letters of support are from the Governor of the State of Hawai'i; the Hawai'i State Senator that Chairs the Committee on Public Safety and Intergovernmental and Military Affairs; and the Hawai'i House Representative that Chairs the Corrections, Military, and Veterans Committee.		
Project Purpose:	These planning and design funds will accelerate the construction of an Air Traffic Control Tower at Wheeler Army Airfield in Hawai'i. The existing control tower, built in 1979, no longer meets the current operational and safety requirements for airfield operations and has numerous maintenance issues. A new tower is required to provide the installation with a control tower that is compliant with current codes and standards to support the mission of the aviation units stationed at Wheeler Army Airfield and support safe operations in and around the airfield, to include non-military aircraft that pass through the area. This planning and design effort was identified as a critical unfunded priority for the Army.

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for Army Planning and Design for a Flight Control Tower at Wheeler Army Airfield in Fiscal Year 2024. The entity to receive funding for this project is the U.S. Department of the Army located at the Office of the Assistant Secretary of the Army (Financial Management & Comptroller), 109 Army Pentagon, Washington, DC, 20310.

The planning and design funding would be used to accelerate the Flight Control Tower at Wheeler Army Airfield, HI. The existing control tower, built in 1979, no longer meets the current operational and safety requirements for airfield operations and has numerous maintenance issues. A new tower is required to provide the installation with a control tower that is compliant with current codes and standards for the facility type to support the mission of the aviation units stationed at Wheeler Army Airfield and support safe operations in and around the airfield.

The project has a federal nexus because the funding provided is for purposes authorized by 10 U.S.C. Chapter 169. I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for military construction planning and design funding for the F-35 Aircraft Oxygen Shop project in fiscal year 2024. The entity to receive funding for this project is Tinker Air Force Base, located within Midwest City, Oklahoma.

The funding would be used for planning and design for a facility required for maintenance, overhaul, and testing of Air Force and other Department of Defense component aircraft breathing oxygen commodities.

The project has a federal nexus because the requested funding would be for purposes authorized by 10 U.S.C. Chapter 169. This project is listed on the Future Years Defense Program (2024-2028) identified as project number WWYK233005.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Tom Cole
Member of Congress

Request ID: 311			
Project Name:	Collective Training Barracks	Request Nature:	Community Project Funding
Member Name:	Escobar, Veronica(D-TX)	Member's Request: (in thousands, \$000)	\$7,200
Justification:	<p>Additional barracks are required to fulfill housing needs of Fort Bliss to support its current and future training missions.</p> <p>There is a large number of transient soldiers from Active Army, Reserve Component, Army National Guard, and other military components supported by Fort Bliss, as well as personnel from deploying units who are on medical hold, all simultaneously demanding use of facilities and straining the existing infrastructure at McGregor Range Camp. Only one battalion set of ORTC facilities is currently available to support this mission. This unprecedented demand is forcing transient soldiers to be housed in a combination of deteriorated temporary facilities and unacceptable semi-permanent facilities that are ready for demolition. Many of these facilities do not provide heating and air-conditioned systems or latrine facilities. Additionally, off post leased hotels are being used as a temporary alternative, causing a multi-million-dollar annual cost.</p> <p>A minimum of four letters of support from community stakeholders and the DD1391 are included in supplemental documents.</p>		
Project Purpose:	The funding would be used for the planning and design of Collective Training Barracks required to provide housing for the many transient soldiers from Army Active, Army National Guard, and the Army Reserve supported by Fort Bliss.

Dear Chairman Rogers and Ranking Member Smith:

I am requesting Planning and Design funding for Collective Training Barracks in fiscal year 2024.

The entity to receive funding for this project is United States Army Garrison Fort Bliss, located at Directorate of Public Works, Building 777, Room 117, 1733 Pleasonton Road, USAG Fort Bliss, Texas, 79906. The funding would be used for the planning and design of Collective Training Barracks required to provide desperately needed housing for the many transient soldiers from Army Active, Army National Guard, and the Army Reserve supported by Fort Bliss.

The project has a federal nexus because the requested funding would be for purposes authorized by 10 U.S.C. Chapter 169.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Member of Congress

Request ID: 269

Project Name:	Whiting Field, Advanced Helicopter Training System Hangar with crane system	Request Nature:	Community Project Funding
Member Name:	Gaetz, Matt(R-FL)	Member's Request: (in thousands, \$000)	\$141,500
Justification:	In FY22-23 NDAA the committee purchased the Advanced Helicopter System or TH-73 helicopter. the unit was procured to replace the TH-57 and provide superior aviation support for the Navy. unfortunately, the Department of the Navy did not proceed with construction of the hanger to house the new aircraft, thus leaving the newly received helicopters exposed to the harsh hurricane conditions and high humidity within Northwest Florida. without this hanger the next storm will rip through this new fleet of helicopters and waste critical recourses.		
Project Purpose:	Advanced Helicopter Training System Hangar with crane system, Naval Air Station Whiting Field facility hanger capable of housing TH-73 helicopters. Current facility is incapable of housing full fleet of recently procured aircraft. Without new hanger the aircraft will be left in the elements during severe storms. Request also accounts for 2 cranes to service aircraft

Washington, D.C. 20515

The Honorable Adam Smith
Ranking Member
Committee on Armed Services
U.S. House of Representatives
Washington, D.C. 20515

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for Military Construction to build an Advanced Helicopter Training System (AHTS) aircraft maintenance hangar in fiscal year 2024. The entity to receive funding for this project is Naval Air Station (NAS) Whiting Field, Milton, Florida, located at N60508 NAS Whiting Field, Milton, Florida (7550 USS Essex St, Milton FL, 32570).

The funding would be used to construct an Advanced Helicopter Training System (AHTS) aircraft maintenance hangar with capacity for servicing 37 of the 130 new helicopters being procured for the AHTS and space for three-helicopter pilot training squadrons. The building consists of one drive-through, high-bay hangar with crew, equipment, training, administrative, data-network areas, and a limited food vending area. Construction will consist of a steel-framed super structure bearing on shallow concrete foundations, which will provide resilience during severe storms that routinely impact northwest Florida. This hangar will house the existing fleet of TH-73 helicopter and provide room for expansion.

The project has a federal nexus because the requested funding would be for purposes authorized by 10 U.S.C. Chapter 169.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Matt Gaetz
Member of Congress

Washington, D.C. 20515

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for a Child Development Center in fiscal year 2024. The entity to receive funding for this project is Fort Bragg located at 3550 All American Fwy, Fort Bragg, NC 28310.

The funding would be used to construct a Child Development Center spaces to improve the existing deficit of spaces at Fort Bragg. This deficit creates an unnecessary hardship on soldiers stationed at the installation. Especially at a time when more Soldiers and families are in Garrison.

The project has a federal nexus because the requested funding would be for purposes authorized by 10 U.S.C. Chapter 169.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Richard Hudson
Member of Congress

Request ID: 286

Project Name:	307 Bomb Wing Medical Facility Expansion	Request Nature:	Community Project Funding
Member Name:	Johnson, Mike(R-LA)	Member's Request: (in thousands, \$000)	\$7,000
Justification:	This project will expand the 307th Bomb Wing's medical facility at Barksdale Air Force Base. The current facility was constructed in 1998, and in 2021 a planning charrette conducted by the Navy validated a requirement for an additional 5,352 square feet of space to meet mission needs. According to the latest Reserve Facility Utilization Report, the 307th Bomb Wing is short of their space authorization by 52%. The addition is needed to relieve overcrowding and allow the wing to more efficiently medically process personnel during training weekends and for operational purposes. If the addition is not constructed, personnel may not be medically cleared in a timely manner, thus delaying deployments and overall wing readiness standing. The expansion has reached 100% design level, and the Air Force maintains funds for this project can be fully obligated in FY24. The project enjoys broad community support, and those letters are attached to the submission.		
Project Purpose:	This project will expand the 307th Bomb Wing's medical facility at Barksdale Air Force Base.		
Project City or County:	Bossier Parish (Barksdale Air Force Base)	Project State:	LA
Recipient Name:	Barksdale AFB, 307th Bomb Wing	Recipient Mailing Address:	1000 Davis Ave. E, Barksdale Air Force Base, Louisiana 71110

The Honorable Adam Smith
Ranking Member
House Armed Services Committee
2216 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for the construction of a medical facility addition for the 307th Bomb Wing at Barksdale Air Force Base in Fiscal Year 2024. The entity to receive funding for this project is the United States Air Force Reserve (Barksdale Air Force Base), located at 425 Lindbergh Avenue Barksdale AFB, LA, United States 71110.

The funding would be used to construct a medical facility addition for the 307th Bomb Wing. The project is an appropriate use of taxpayer funds because the current facility is prone to overcrowding, and an expanded facility will allow the Wing to more efficiently medically process personnel during training weekends and for operational purposes. The Air Force maintains that without this expansion, personnel may not be medically cleared in a timely manner, thus delaying deployments and the Wing's overall readiness standing. The expansion's design is 100% complete, and I am told the Air Force can obligate funds for this project in Fiscal Year 2024.

The project has a Federal nexus because the funding provided is for purposes authorized by 10 U.S.C. Chapter 169, and I plan to pursue an appropriation for this project in the Fiscal Year 2024 Military Construction, Veterans Affairs, and related agencies appropriations bill. I certify that I have no financial interest in this project, and neither does anyone in my immediate family. Thank you for your consideration of this request.

Sincerely,

Mike Johnson
Member of Congress

Request ID: 272			
Project Name:	P521 Fire/Emergency Response Station (53 Area) Replacement, MCB Camp Pendleton, CA	Request Nature:	Community Project Funding
Member Name:	Levin, Mike(D-CA)	Member's Request: (in thousands, \$000)	\$26,825
Justification:	The project is an appropriate use of taxpayer funds because it provides a facility that meets current design and seismic standards, thereby enabling firefighters to protect lives and property at MCB Camp Pendleton. It will support the life, health, safety, and resiliency of MCB Camp Pendleton, I Marine Expeditionary Force (MEF), Major Commands, Marines, Sailors, tenants, and families.		
Project Purpose:	<p>This funding would be used to construct a fire emergency response station in the 53 Area of Marine Corps Base (MCB) Camp Pendleton that meets Unified Facilities Criteria (UFC) design standards. Specifically, the project includes construction of a single-story structure with administrative spaces, living quarters, training facilities, storage spaces, recreation, fitness, kitchen and dining facilities, a covered patio, restrooms, laundry, and vehicle apparatus bays including maintenance/storage bays. It will also include cybersecurity and antiterrorism features, built-in equipment such as an emergency generator and fireman gear lockers, and paving and site improvements.</p> <p>Lastly, the project includes demolition of two buildings in the 52 Area of the base. These facilities are inadequate and cannot safely or efficiently meet mission needs for the growing population, leading to worsening response times. The current fire station (built in 1942) and apparatus bay (built in 1986) are antiquated, and neither efficiently configured to support the larger vehicles used by MCB Camp Pendleton Fire Department nor designed to meet current seismic standards. This vulnerability poses the risk of collapse due to a natural disaster or other catastrophe, undermining the base's ability to respond to emergency situations.</p> <p>The new station funded by this project will provide complete emergency services with improved response times to a 200 square mile radius, including the base's jurisdiction on Interstate 5 and all major live fire training ranges and facilities located within the north end of the base. Specifically, it will serve \$2 billion in installation facilities and 75,000 military and civilian personnel.</p>

U.S. House of Representatives
Washington, D.C. 20515

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for P521 Fire/Emergency Response Station (53 Area) Replacement, MCB Camp Pendleton, CA in fiscal year 2024. The entity to receive funding for this project is the United States Marine Corps, located at 3000 Marine Corps Pentagon, Washington, DC 20350-3000.

The funding would be used to construct a fire emergency response station in the 53 Area of Marine Corps Base (MCB) Camp Pendleton.

The project has a Federal nexus because the funding provided is for purposes authorized by 10 U.S.C. Chapter 169.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

MIKE LEVIN
Member of Congress

Request ID: 289			
Project Name:	Network Enterprise Center	Request Nature:	Community Project Funding
Member Name:	Lofgren, Zoe(D-CA)	Member's Request: (in thousands, \$000)	\$40,000
Justification:	<p>The age and condition of the Fort Hunter Liggett NEC Facility places it at great risk to catastrophic failure, thus jeopardizing the installation's mission. There have been numerous service outages related to the age of the infrastructure and complete failure will eventually result. These service outages bring the mission at FHL and PRFTA to a complete standstill, significantly degrading the ability of first responders to communicate and compromising cybersecurity protocols. In addition to the risk and effects of frequent service outages, there are significant life health-safety issues with the current facility. The building is porous and has led to a rodent infestation. Rattle snakes have also entered the building on several occasions, posing immediate risk to employees. Adding further risk is the fact that the Data Center is not equipped with emergency power kill switches that are required in the event of electrocution.</p> <p>Attached is a white paper describing the need for the project and a DD 1391.</p>		
Project Purpose:	<p>The authorization of this major military construction project (PN 97212) allows for the construction of the Network Enterprise Center (NEC) at Fort Hunter Liggett. The construction of the Network Enterprise Center will have a standard design Information Systems Facility (ISF), organizational vehicle parking, open storage area and building information systems. The facility includes space for a command center for operations support with video teleconferencing capability, administration, reception, network administrators, operations floor, tech lab, operations center, administrative offices, customer service center, technical assistance for information technology, controlled humidity warehouse, loading dock with receiving zone, shower/locker rooms, and break rooms. Supporting facilities include utilities, fire protection and alarm systems, Intrusion Detection System installation, Utility Monitoring Control Systems (UMCS) connection, uninterrupted power supply, redundant mechanical and electrical systems, heating and cooling, and pavements, walks, and curbs. As part of its mission, the Network Enterprise Center provides Information Technology, Cybersecurity, and Communications including telephone, 911 , and first responder radio services to Fort Hunter Liggett and Parks Reserve Forces Training Area (PRFTA). Additionally, the FHL NEC provides first-responder radio services to Camp Roberts Satellite Communications (SATCOM) Security Forces. The facility is 30-years beyond the intended lifecycle and was never renovated to serve as a modern IT Data Center. It lacks all features required for a Data Center including adequate power and HVAC, safety equipment and controls, capacity, scalability, security features, and others.</p>

Dear Chairman Rogers and Ranking Member Smith,

I am requesting funding for construction of the Security Forces Facility at Dobbins Air Reserve Base in fiscal year 2024. The entity to receive funding for this projects, Dobbins Air Reserve Base, is in Marietta, Georgia and is located in Georgia's 11th Congressional District. The funding would be used for construction of the new facility supporting squadron training, administration, operations, and storage requirements for both base operations and deployable forces. The project is an appropriate use of taxpayer funds so that Dobbins Air Reserve base may remain at the required state of mission readiness.

The project has a Federal nexus because the funding provided is for purposes authorized by 10 U.S.C. Chapter 169.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Barry Loudermilk
Member of Congress

PRINTED ON RECYCLED PAPER

Request ID: 317			
Project Name:	FTIG Auto MPMG Range	Request Nature:	Community Project Funding
Member Name:	Meuser, Daniel(R-PA)	Member's Request: (in thousands, \$000)	\$15,500
Justification:	<p>If this project is not provided, PAARNG units will continue to face adverse impacts to training and readiness for machine gun training. Soldiers will be unable to train and test on an Automated Multi-Purpose Machine Gun Range (MPG). The existing range complex is unable to handle the demand of PAARNG units forcing them to travel to ranges in other states to effectively conduct individual or crew training requirements for automatic weapon systems. These alternative locations result in increased fuel consumption, military vehicle maintenance, increased meals and lodging costs. The current situation also causes a deficiency in the Army Range Requirements Model (ARRM)</p>		
Project Purpose:	<p>Multi-Purpose Machine Gun Range. To construct a 10 lane multi-purpose machine gun range that supports training requirements of the Pennsylvania Army National Guard at Fort Indiantown Gap, PA to train and test crews on the skills necessary to detect, identify, engage and defeat stationary and moving infantry and armor targets in a tactical array. Project will consist of ten medium machine gun firing points, four vehicle heavy machine gun firing points, and a range operations control area consisting of a range control tower, range operations and storage building, bleacher enclosure, covered mess shelter, latrine, and ammunition breakdown building. Supporting facilities include electric service, site improvements, down range service road to include a down range bridge crossing and required utilities. This facility will be build on federal land. The project has been validated by ARNG-TR and approved to move project to DA level for review.</p>

Request ID: 285			
Project Name:	Access Control Point	Request Nature:	Community Project Funding
Member Name:	Rogers, Mike(R-AL)	Member's Request: (in thousands, \$000)	\$55,389
Justification:	<p>The Calhoun County Area Chamber and Visitors Center and the Calhoun County Economic Development Council support Anniston Army Depot's (ANAD) construction of a new main entrance gate that connects Bynum Blvd at the Turner Road/Bynum Blvd intersection. The Main Gate will provide more security by providing a better Access Control Point for commercial vehicles and inspection capability for all visitors. The Depot's traffic flow and vehicle safety will significantly be improved.</p> <p>The Main Gate entrance area is ANAD's front door to the world for their assigned Center of Industrial Technical Excellence Mission to sustain all combat vehicles, except Bradley. It is the county's largest employer and handles the daily commutes of approximately 2,000 of ANAD's 4,000 employees. The entrance area also processes all commercial and visitor traffic to the Depot.</p>		
Project Purpose:	<p>ANAD's current main gate and access control facilities are not in compliance with UFC 4-022-01, Security Engineering: Entry Control Facilities(ECF)/Access Control Points, for design of vehicle inspection point, access denial, installation approach zone, and turn-around configuration. The ISR Rating for Building 367, ANAD's Main Gate and Entry Control/Visitor Center is rate F3/Q2. This project will remedy the issues outlined.</p>

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for a Main Gate in fiscal year 2024. The entity to receive funding for this project is Anniston Army Depot (ANAD) located at 7 Frankford Ave, Anniston, AL 36201.

The funding will provide more security by providing a better Access Control Point for commercial vehicles and inspection capability for all visitors. The Main Gate entrance area is ANAD's front door to the world for their assigned Center of Industrial Technical Excellence Mission to sustain all combat vehicles, except Bradley. It is the county's largest employer and handles the daily commutes of approximately 2,000 of ANAD's 4,000 employees.

The project has a federal nexus because the requested funding would be for purposes authorized by 10 U.S.C. Chapter 169.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mike Rogers
Member of Congress

Project Name:	Water Reclamation Facility Compliance Upgrade	Request Nature:	Community Project Funding
Member Name:	Tokuda, Jill N.(D-HI)	Member's Request: (in thousands, \$000)	\$227,350
Justification:	<p>This project is supported by Governor Josh Green of Hawai'i, as well as local elected officials representing Marine Corps Base Hawai'i: State Senator Jarrett Keohokalole, State Representative Natalia Hussey-Burdick, and City Councilmember Esther Kia'aina.</p> <p>Given ongoing challenges with the military's environmental impacts in Hawai'i in the aftermath of the Red Hill fuel spill, investments in local military infrastructure help rebuild public trust and relations with the Department. This project would also mitigate unacceptable public health and environmental risks from potential releases of wastewater into Kaneohe Bay, as has occurred numerous times in recent years.</p>		
Project Purpose:	<p>This project provides necessary upgrades to the water reclamation facility at Marine Corps Base Hawai'i (MCBH), including construction of a parallel redundant treatment system to meet redundancy and reliability requirements under State and Federal law. Additional upgrades include sewage treatment plant construction, tsunami mitigation measures, and cybersecurity and antiterrorism features.</p> <p>Completing this project would ensure resiliency in MCBH's water treatment capabilities and prevent further unauthorized, harmful wastewater discharges into Kaneohe Bay that pose risks to public health and the environment. The project will also save taxpayer dollars by ensuring that MCBH will not continue to get fined by the State of Hawai'i for failing to comply with State and Federal laws under the Clean Water Act.</p>

Washington, DC 20515

The Honorable
Adam Smith
Ranking Member
Committee on Armed Services
U.S. House of Representatives
Washington, DC 20515

Dear Chairman Rogers and Ranking Member Smith:

I am requesting funding for the **Water Reclamation Facility Compliance Upgrade** at the **Marine Corps Base Hawai'i (MCBH) at Kāne'ohe Bay** in Fiscal Year 2024. This project was included in the Marine Corps' Fiscal Year 2024 Unfunded Priorities List as the top military construction need.

The funding would be used for necessary upgrades to the water reclamation facility at MCBH, including construction of a parallel redundant treatment system to meet redundancy and reliability requirements under State and Federal law. Additional upgrades include sewage treatment plant construction, tsunami mitigation measures, and cybersecurity and antiterrorism features. The project is an appropriate use of taxpayer funds because it would ensure resiliency in MCBH's water treatment facilities, support readiness for servicemembers stationed at MCBH, and reduce risks posed to public health and the environment.

The project has a Federal nexus because the funding provided is for purposes authorized by 10 U.S.C. Chapter 169.

Lastly, I certify that neither I nor anyone in my immediate family have a financial interest in this project.

Sincerely,

Jill Tokuda
Member of Congress

Request ID: 282			
Project Name:	Acquisition Management Complex Phase V	Request Nature:	Community Project Funding
Member Name:	Turner, Michael R.(R-OH)	Member's Request: (in thousands, \$000)	\$19,800
Justification:	<p>The Acquisition Management Complex Phase V is a 214,200 square feet modern, secure, flexible facility that will consolidate multiple organizations serving the Air Force Life Cycle Management Center (AFLCMC), streamlining and improving their efficiency. The complex houses acquisition workers (engineering, contracting, financial management, logistics, program management, and other functions) who acquire, sustain, and modernize aircraft and related weapons systems critical to national defense. AFLCMC anticipates without adequate facilities, it will be unable to staff projected new positions which will delay systems needed by the warfighter.</p>		
Project Purpose:	<p>Provides a secure, modern, flexible acquisition facility equipped with the necessary information technology systems to provide the warfighter essential equipment. The Air Force Life Cycle Management Center (AFLCMC), designs, develops, and delivers dominant aerospace weapon systems and capabilities for the US Air Force, other US military, allied and coalition-partner warfighters in support of Air Force leadership priorities. Currently AFLCMC has reached the limit of serviceable, available secure space. This project will facilitate the consolidation of multiple AFLCMC Directorates/PEOs: Command Staff, Acquisition Excellence and Program Execution, Financial Management, Contracting and Plans and Programs Directorate, Fighters and Advanced Aircraft Directorate, Bombers Directorate, Intelligence Surveillance Reconnaissance and Special Operations Forces Directorate, Mobility and Training Aircraft Directorate, Agile Combat Support Directorate, and Architecture and Integration. The AFLCMC consolidation effort includes consolidating multiple organizations and will allow them to streamline and improve their mission performance of delivering war-winning expeditionary capabilities to the warfighter through development and transition of technology, professional acquisition management, exacting test and evaluation, and world-class sustainment of all Air Force weapon systems. The consolidation effort includes government and Foreign Military Sales (FMS) and will allow them to streamline and improve their mission performance.</p>

Dear Chairman Rogers and Ranking Member Smith,

I am requesting planning and design funding for the Wright Patterson Air Force Base Acquisition Management Complex Phase V. Funding for this project is Wright Patterson Air Force Base, located at 5135 Pearson Rd. Bldg 10, Rm 206 Wright-Patterson AFB, OH.

The funding would be used for planning and design of a new complex which would house acquisition workers (engineering, contracting, financial management, logistics, program management, and other functions) who acquire, sustain, and modernize aircraft and related weapons systems critical to national defense.

I certify that neither I nor my immediate family has any financial interest in this project.
